See Other Side for 12-Month Non-Tobacco Plans

Acceptance is subject to medical underwriting. Rates subject to change. Tobacco user rates do not apply to children under 19. For Arkansas residents only.

The premium for the HIPAA plan is higher than the non-HIPAA plans.

*For children under 6 months old, child only rates are not available; children this age can only be covered as a dependent under a parent's policy.

**Maternity benefits apply only to the applicant and spouse and will not begin for one year. Maternity coverage is not available on the child only plan.
